18 August 2015

**Dear Skills Development Providers**

**Re- Registration of Services SETA Qualifications and Unit Standards**

This letter serves to inform Services SETA skills development providers that registered qualifications and unit standards which fall within the scope of Services SETA have been re- registered by the South African Qualifications Authority (SAQA). Qualifications and unit standards which expired on **30 June 2015 have been re -registered** for a further three (3) years.

This means that qualifications and unit standards which expired on 30 June 2015 will be re-registered with a new expiry date of **30 June 2018. The last date of enrolment for these qualifications and unit standards is 2019-06-30 and the last date of achievement has been changed to 2022-06-30**. This re-registration period allows for the development of new occupational qualifications which will replace currently registered qualifications. Currently registered qualifications will gradually be phased out once new occupational qualifications are developed and registered by SAQA.

Please note that where qualifications have not received a new registration end date and the qualification has been reviewed and changed, skills development providers are required to re-apply for accreditation of their learning programmes aligned to the new qualification.

NB: Where providers are applying to offer skills programmes or single unit standard, please ensure that those unit standards have not expired.

For more information please do not hesitate to Contact Service Seta Registrar Dept.on Tel: 011 276 9600.

Kind Regards

Nozipho Zondo

Manager: Qualification and Accreditation
